

Mission

To engage diverse communities in a partnership to reduce the use and abuse of alcohol and other drugs through culturally competent, evidence-based prevention activities.

County Strategic Prevention Plan Goals:

- Reduce Underage Drinking.
- Reduce Marijuana Use Among Youth.
- Increase and Sustain AOD Prevention System Capacity.

Services are covered by Medi-Cal. If you would like to apply for Medi-Cal, call the Contra Costa County Health Benefits Hotline:

1-800-709-8348

If you would like to receive information regarding Medi-Cal eligibility, call the Contra Costa County Employment and Human Services Department:

From Prevention Toward Healthy Communities

Community Coalitions

Coalitions are comprised by residents who work within their respective communities to change community norms and reduce the prevalence of alcohol and other drug related problems in Contra Costa County. By utilizing a public health approach to prevention, coalitions address underage drinking, youth access to alcohol, availability of alcohol products promoted to youth, driving under the influence, prescription drug misuse, marijuana access by youth, etc. Our Coalitions are: Alcohol and Drug Abuse Prevention Team (ADAPT) San Ramon Valley, Alcohol and Drug Abuse Prevention Team (ADAPT) Lamorinda, Monument Corridor Anti-Drug and Alcohol Coalition, East County Alcohol Policy (ECAP) Coalition, and the Alcohol, Marijuana and Prescription Drug (AMPD) Coalition. In Contra Costa, coalitions have successfully implemented Responsible Beverage Service (RBS) trainings & Town Hall meetings. They have also advocated for the County's Deemed Approved Ordinance, Retail Environment Compliance Check, and the Safe Disposal Ordinance.

Youth Development

Youth Development programs offer young people activities and training that promote healthy lifestyles, develop leadership, and community organizing skills. Through youth driven and youth led programs youth have the opportunity to participate as active leaders in their community. AOD Youth Development programs focus on issues such as: reducing underage drinking, changing social norms, reducing underage marijuana use, changing marketing practices to make alcohol products less appealing to youth, etc. Some examples of Youth Development Programs include a County Wide Youth Health Coalition (CourAGE), Friday Night Live (FNL), Club Live (CL), Discovering the Reality of Our Community (DROC) and The Empowerment Project.

Prevention Services

Our prevention services are funded through the Substance Abuse Prevention and Treatment Block Grant (SAPT BG) and guided by the Contra Costa County Strategic Prevention Plan. Alcohol and Other Drugs (AOD) Prevention Services are provided free of charge for county residents who are not in need of treatment.

All of our programs adhere to the Culturally and Linguistically Appropriate Services (CLAS) standards, and combine interventions & strategies that together comprehensively prevent Substance Use Disorders.

School-Based Services

Our school-based services, implement evidence-based programs, focusing on developing social skills, improving decision making and refusal skills, and enhancing adolescent resilience among middle school aged students. The goals of AOD education is to increase knowledge about alcohol and other drugs, and increase knowledge about the environmental factors that promote alcohol and other drug use, thereby, delaying onset of use, reducing frequency of use and preventing progression towards development of Substance Use Disorders.
