

Your Opportunity to Learn What Local Companies Are Doing to Prevent Accidents

The California Accidental Release Prevention (CalARP) Program, Contra Costa County's Industrial Safety Ordinance (ISO) and the City of Richmond's Industrial Safety Ordinance (RISO) require companies with regulated chemicals to submit a Risk Management Plan (RMP) and Safety Plan (SP). Plans include:

- A description of the hazardous materials present,
- The accident prevention programs in place,
- The facility's emergency response program, and
- The management systems in place to implement the overall program.

The CalARP Program requires the Contra Costa Health Services Hazardous Materials Programs (CCHMP) to perform document reviews and audits to ensure companies are in compliance with the CalARP/ISO/RISO regulations, and are following the programs listed in their RMPs and SPs. A forty-five day public comment period for the Preliminary Audit Findings, RMPs and SP listed below begins on April 22, 2017 and will end on June 6, 2017. These documents and other CalARP/ISO/RISO documents for regulated facilities may be reviewed at the CCHMP Office located at 4585 Pacheco Blvd., Suite 100 in Martinez. Please call (925) 335-3200 to schedule an appointment. They are also available for review at the libraries listed below.
