<b>Trainer:</b>	James Peck, PsyD, UCLA Integrated Substance Abuse Programs
<b>Who Should Attend:</b>	<p>This three-hour live virtual training is <b>free</b> and is open to providers including:</p> <ul style="list-style-type: none"> <li>• Psychologists</li> <li>• LMFTs and LCSWs</li> <li>• Registered Nurses</li> <li>• Certified Substance Use Disorder Treatment Counselors</li> <li>• Other Behavioral Health Specialists/Clinicians</li> </ul>
<b>Training Description and Core Clinical Components:</b>	<p>This interactive, skills-based, intermediate-level training will begin with a brief overview of the ASAM criteria and a cross-walk between the levels of care articulated in the ASAM criteria and the levels of care defined by the California Drug Medi-Cal Organized Delivery System (ODS) Waiver. Following the brief review of the ASAM criteria, participants will take a case scenario, develop risk ratings based upon a completed assessment, and then develop an individualized treatment plan to address the problem areas identified across each of the six dimensions, including long and short term goals, and actions steps the patient and staff will implement. From the treatment plan, instruction will be given in developing notes that document progress on the treatment plan goals. Participants will practice drafting progress notes reflective of the problems, goals and action steps established on the treatment plan. <i>“ASAM,” “American Society of Addiction Medicine,” “ASAM Logo,” the ASAM logos and taglines, are registered trademarks of ASAM, and are used with permission. Use of these terms is prohibited without permission of ASAM. Use of these trademarks does not constitute endorsement of this training, product, or practice by ASAM.</i></p>
<b>Learning Objectives:</b>	<p>At the conclusion of the training, participants will be able to:</p> <ol style="list-style-type: none"> <li>1. Identify the six (6) dimensions of the ASAM Criteria.</li> <li>2. Determine how at least three (3) of the six ASAM Criteria dimensions map onto Maslow’s Hierarchy of Needs.</li> <li>3. Analyze an example of a full ASAM assessment form and formulate a single risk rating from 0-4 for each of the six (6) ASAM dimensions.</li> <li>4. Organize the example client’s six (6) risk ratings into a level of care determination tool and determine the appropriate level of care for the example client.</li> <li>5. Identify at least three (3) criteria for SMART treatment goals and objectives on treatment plans.</li> </ol>
