APPROVED COTTAGE FOODS – JUNE 23, 2022

Cottage Food Operations are allowed to produce certain categories of non-potentially hazardous foods. These are foods that do not support the rapid growth of microorganisms or toxins that could make people sick when the food is held outside time and temperature control. The California Department of Public Health (CDPH) is responsible for maintaining the Approved Cottage Foods List and may add or delete food categories. Notice of any change, the reason for the change, and the nature of the change is posted on our [Cottage Food Operations](#) webpage. Changes become effective 30 days after the notice has been posted.
