

March 17, 2021

Dear Pool/Spa Permit Holder:

Item #9 on the “Interim Guidance for Pool Facilities (March 14, 2021)” for the Substantial/Red Tier has been updated to more closely mirror State guidance:

Rather than no more than one user per 75 square-feet of pool surface area, use the following criteria for the pools:

“Limit occupancy of the pool so as to keep users from different households at least 6 feet apart.” The updated document can be found on Environmental Health’s COVID-19 Information page: <https://cchealth.org/eh/covid19.php>

Thank you for doing your part to keep both employees and bathers safe.

Sincerely,

Contra Costa Environmental Health
