34. The pool enclosure shall have at least one means of egress without a key for emergency purposes.

35. Openings, holes or gaps in the enclosure, door and/or gates shall not allow the passage of a 4" diameter sphere. The bottom of the enclosures shall be within 2" of the finished grade. Chain link may be used if provided that the openings are not greater than 1/2" measured horizontally. (311B, 31B-B) 36. Each pool shall have a minimum effect of at least 1.5 ppm is required. (311B)

37. The enclosure shall be designed & constructed so that it cannot be readily climbed by small children. Horizontal & diagonal member designs, which might serve as a ladder for small children, are prohibited. Horizontal members shall be spaced at least 48" apart. Planters or other structures shall not be permitted to encroach upon the clear span area. (311B)

EQUIPMENT ROOM

38. The recirculation system shall have a flow meter, accurate within 10% of actual flow. (312B,3.3)

39. A pressure gauge shall be provided on each filter influent & effluent line. A vacuum gauge shall be provided for suction-type filters. (312B,2.5)

40. The pumps must be kept in operation whenever the pool is available for use and kept in good repair. (312B, 312B.1, 312B.2, 312B.5)

41. Each pool shall be provided with a system designed for continuous disinfection of the pool water which must be operational while the pool is open for use & as necessary to maintain the water in a clear & disinfected condition. Chemical feeder equipment shall prevent uncontrolled discharge of chemicals directly into the pool. (312B, 312B.1, 312B.2, 312B.3, 312B.5, 312B.6, 312B.7, 312B.8, 312B.9, 312B.10, 312B.11, 312B.12, 312B.13)

42. Pool operation, source of water supply, amount & quality of water, method of water purification, & measures to ensure personal cleanliness of bathers shall be such that the public swimming pool is at all times sanitary, healthful & safe. Equipment must be readily accessible. (312B, 312B.3, 116043)

43. Filters shall: withstand normal & continuous use without deterioration which could affect filter operation, maintain clean & clear pool water, prevent the passage of unfiltered water, be easily disassembled & inspected, be easily restored to the design capacity & resist electrolytic corrosion. (312B, 312B.1, 312B.2, 312B.3, 312B.4, 312B.5, 312B.6, 312B.7, 312B.8, 312B.9, 312B.10, 312B.11, 312B.12, 312B.13)

44. No direct connection of the pool or its recirculation system shall be permitted with a sanitary sewer, storm sewer or combined sewer. Where permit regulations, discharge to a sanitary sewer shall be through an air-gap type separation. Contact your local sanitary district for approval prior to discharging pool water into the sewer system. (3137B.2)

45. Material cleaned from filters, waste & backwash water shall be disposed of without creating a nuisance. In accordance with applicable local regulations, the backwash water shall be disposed of to a sewer system or by another approved method. Pumps & drain piping should have sufficient capacity to receive pool system backwash without overflow. (3137B, 3137B.1, 3137B.2, 3137B.3, 3137B.4, 3137B.5, 3137B.6, 3137B.7, 3137B.8, 3137B.9, 3137B.10, 3137B.11, 3137B.12, 3137B.13)

ANCILLARY AREAS

46. Toilets, urinals, showers, wash basins & other plumbing fixtures shall be clean & in good repair. Showers shall be provided with soap in dispensers or containers. Showers & lavatories shall be provided with hot (limit 110°F) & cold temper water, handwashing soap, sanitary towels or hot air blowers, & toilet tissues in permanently installed dispensing devices. Floors should be nonslip, non-slip & keep free from cracks or defects. (65535, 65535.1, 65535.2, 65535.3)

47. Label pipes with directional symbols the direction of flow on all piping in the equipment area. Where there is provisions for equipment for more than one pool is located on site, the equipment shall be marked as to which pool the system serves. Valves & plumbing lines shall be labeled clearly with the source or destination descriptions. (312B, 312B.17, 312B.17.1, 312B.17.2, 312B.17.3)

SAFETY EQUIPMENT

48. Lifeguard service shall be provided for any public swimming pool in which a direct fee is charged for use. All lifeguards & swim teachers shall be trained & certified as required. (1797.182, 116028, 116033, 3113B.3)

49. Toilets, urinals, showers, wash basins & other plumbing fixtures shall be clean & in good repair. (3125.B.2.4)

50. One or more guarded jet drinking fountain shall be provided and kept in good repair unless drinking water is available at an adjacent building. (311B)

51. Artificial coverings shall not be permitted on the deck area unless approved by the enforcing agency. (311B.4)

52. Hose bibs shall be available at each pool & protected against backflow. (311B)

SUPERVISION

53. No pool shall be placed in use without the written approval of the enforcing agent. A person proposing to construct, reconstruct or alter a swimming pool or auxiliary structure/equipment shall submit legible plans & specifications to the enforcing agent for review, & obtain written approval prior to commencing construction or operation. (3113B.4)

54. Every person operating/maintaining a pool must maintain records including disinfectant residual, pH & maintenance. If cyanuric acid is used, monitor & record monthly. (116040, 116049, 65523(a-e))

55. Test kits for measuring the pH, disinfectant free residual, & cyanuric acid, shall be accurate to within ± 0.1 pH, ± 0.2 ppm & ± 1 ppm, respectively. (3133B.2.1, 3133B.2.2, 3133B.2.3, 3133B.3.1, 3133B.4.1, 3133B.4.2, 3133B.4.3, 3133B.5.3, 3133B.5.4, 3133B.5.5)

56. Animals shall not be permitted in the pool or pool area. No persons having a communicable disease shall be employed at a public swimming pool. (65533(b), 65541(a))

57. Signs shall be clearly legible & conspicuously posted: Where no lifeguard service is provided "Warning: No Lifeguard on Duty" & "Children Under the Age of 14 Shall Not Use Pool Without A Parent or Adult Guardian In Attendance". "NO DIVING" at pools with depth of 6’ or less; where roof lighting features are not provided: "NO USE OF POOL ALLOWED AFTER DARK"; "KEEP CLOSED" on gate; occupant load: spa-1 bather per 10 sq. ft. area; pool-1 bather per 20 sq. ft. area; at all pools, diagrammatic illustrations of artificial respiration procedures & CPR; emergency telephone number 911, number of nearest emergency services & name & address of pool facility; nearest emergency hospital & or clinic. (312B)

Sections from “The Design, Construction, Operation and Maintenance of Public Swimming Pools” which correspond to the violations listed on the front of this form. This page lists the general requirements for each item; the division may cite additional sections as applicable.
