**Standing Item:** Quality Improvement
(Gabriella Quintana, HCH QI Team)

1. Clinic Productivity

   a. Visit count and number of patients seen in 2022 have not yet returned to pre-pandemic levels but show improvement from 2021.

      i. 7,700 total visits

      ii. 1,745 total unique patients

**Question from the Board:** How can you tell where we need clinics or don’t?

   b. Delta landing is new and was extremely busy and consistently fill a clinic

      i. Not just the number of patients but the build and getting the word out.

      ii. Giving time for people to know we are there

      iii. Time, volume and awareness of what’s going on

      iv. Looking at Baldwin Park clinic critically. It has been low volume, maybe 2 patients per clinic. What do we need to do? Give it a couple months, work with CORE, word of mouth.

      v. If we give up a bus, it’s hard to get back with staffing challenges among mobile clinic operators.

      vi. Collaborating with Bay Church Showers on Monument or elsewhere.
vii. Parking is an example of a barrier in the city of Concord because constituents can complain. We have been searching a lot in Concord.

   b. Someone can go out and evaluate the site.

   c. A stand down is a military term, these were created by Vietnam veterans in San Diego when they come out of combat zone into a safe environment to shower, eat, etc.
