Seniors and Persons with Disabilities (SPDs) are here!

The SPD’s began mandatory enrollment at CCHP with 1,010 new SPD members either choosing or being assigned by the State into CCHP during the first month on June 1, 2011. CCHP appreciates all 3 networks – CCRMC, CPN and Kaiser for working with us as we assigned members to PCPs which ensured continuity of care for them. We were successful in assigning nearly all SPDs back to their previous PCP or meeting their choice of PCP. This first month resulted in 50% of the SPDs being returned to CCRMC and 50% being assigned to either CPN or Kaiser. We will continue these cooperative efforts over the next eleven months as SPDs continue to enroll.

Cultural/Sensitivity Training

CCHP is required to present SPD cultural awareness and sensitivity training to all of our providers. We have made training materials available on our website to enhance our provider’s awareness of the needs of this special member population. We presented our first live trainings in April at the Community Provider meeting in West County on April 19 and in Central/East County April 26. Both trainings were well attended by our Primary Care physicians. In May, we notified providers by fax that training webinars would be available during the month of May on our website at www.contracostahealthplan.org for providers to access at their leisure. In addition, all training materials have been posted on the website for your review. Additional webinars will be scheduled at future dates and we will notify you as they become available.

E-learning for CCRMC providers will be available in the near future.

Please contact Provider Relations with any questions or concerns at (925) 313-9500, or send us an email to Provider.Relations@hsd.cccounty.us.
Tidbits from the Utilization and Case Management Team:

Health Risk Assessments for New SPD Enrollees

Contra Costa Health Plan’s (CCHP) Case Management is excited to welcome new Medi-Cal Seniors and Persons with Disabilities (SPDs) to our plan beginning June 1, 2011. New SPD members will be mandated into managed care on a rolling 12 month basis over the next year. CCHP’s Case Management department will be conducting health risk assessments (HRA) on all newly enrolled members. The results of the HRA, along with previous utilization data from the State, will be key in assuring quality transitional and ongoing care. The HRA will enable us to identify and address barriers to care access such as developmental, physical or mental health disability, transportation concerns, housing, food, medication management and caregiver support. Case Management has a dedicated team of nurses and care management associates who will strive to ensure our members’ needs are met. In addition, completed HRA’s and care plans for high-risk clients will be sent to the primary care provider.

Any questions about the HRA may be addressed to the team by contacting Monica at (925) 957-7453.

SelectCare News

SelectCare is a Medicare Advantage Special Needs Plan offered by Contra Costa Health Plan. It is designed for Medicare beneficiaries who are also enrolled in the California Medi-Cal program. More information about SelectCare can be found at http://www.cchealth.org/health_plan/selectcare/. The complete SelectCare formulary can be found at http://selectcare.performrx.com/.
Pharmacy and Therapeutics Update

The Pharmacy and Therapeutics committee at CCHP reviewed the efficacy, safety, cost and/or utilization of the following therapeutic categories/medications at the meeting. The changes are expected to be effective the week of July 15th, 2011.

- **Antihistamines**
- **Antihyperuricemics**
- **Triptans**
- **Dipeptidyl Peptidase – 4 Inhibitors**
- **Hepatitis B & C Agents**
- **Statins**
- **Pradaxa**

The committee approved addition of the following to the Preferred Drug List (formulary):
- Allegra® OTC (fexofenadine) after failure of loratadine and ceterizine. OTCs are not covered for commercial members.
- Generic Amerge® (naratriptan) step therapy. Naratriptan 2.5mg is formulary after failure of sumatriptan. Naraptriptan 1mg is non-formulary.
- Generic Mevacor® (lovastatin) is added the formulary.

The committee approved deletion of the following to the Preferred Drug List (formulary):
- Crestor®(rosuvastatin) doses of 20mg or less removed from formulary. Existing patients will be grandfathered, new starts must use other formulary statins (pravastatin, simvastatin). Only 40mg daily dose of Crestor is formulary. Tablet splitting of any dose of Crestor is non-formulary and requires PA.

The following were reviewed and prior authorization criteria approved or updated (remain non-formulary):
- Incivek® (telaprevir)
- Victrelis® (boceprevir)
- Pradaxa® (dabigatran)
- Coycrys® (colchicine)

**SPD Transition**

- CCHP has started accepting enrollment of **Seniors and Persons with Disabilities (SPDs)**. Previously these patients were covered under Fee-For-Service Medi-Cal. CCHP has setup a special transition period to allow these SPDs to continue on any non-formulary medications and use of non-contracted pharmacies for up to 90 days (30 days with 2 refills) upon enrollment with CCHP.

CCHP will notify providers when their new SPD patient is on a CCHP non-formulary medication. Providers should promptly switch their patients over to a CCHP formulary agent or submit a prior authorization. Since CCHP will get new SPD enrollments at the beginning of each month over the next 12 months, some providers can expect to receive letters each month for their new SPD enrollees.

Patients will also receive letters from CCHP if they are using a non-contracted pharmacy. The letter will explain the need to use a contracted pharmacy and how to transfer their prescriptions to another pharmacy.
New Stark Rules Under Health Reform

From WASHINGTON DC, USA -- Excerpt from HEALTH CARE UPDATE NEWS SERVICE™ -- FEBRUARY 15, 2011

The rules of the physician self-referral have changed. Changes to the regulations occurred in Oct 2009 with heightened enforcement by CMS and the HHS OIG in 2011. Here is an outline of the changes.

- The health care reform law bans all referrals by physicians to hospitals, even those in rural areas, in which they have an ownership interest unless very strict conditions are met.
- Physicians who refer patients for certain imaging services must comply with new notice and disclosure rules to use the in-office ancillary services exception.
- To comply with the act, CMS has established the self-referral disclosure protocol to Resolve "actual or potential" violations of the Stark law.
- For providers who use the SRDP, HHS now has been given flexibility to reduce the penalties.
- The law imposes a 60-day deadline for returning "overpayments" with potential civil monetary penalties if the deadline is missed.
- A person or entity that performs a designated health service (DHS), even on behalf of an organization that bills for the service, is now subject to Stark, and these "under arrangement" agreements must be in compliance with Stark rules.
- Because of changes to "stand-in-the-shoes" provisions, the availability of Stark exceptions has also changed.
- Prohibitions on certain kinds of lease arrangements and compensation methods narrow the availability of some of the exceptions.
- Complex Stark implications arise with the ARRA EHR incentives.
