SPDs Are Here!

Contra Costa Health Plan has been successful in expanding our Community Provider Network (CPN) in order to assist CCRMC Health Centers in serving the influx of Medi-Cal Seniors and persons with disabilities (SPDs). The State of California started moving SPDs out of Medi-Cal fee for service on June 1, 2011 into mandatory Medi-Cal Managed Care programs throughout California on a monthly staggered basis.

Since June, CCHP has enrolled 6469 SPDs with 91 percent of SPDs in Contra Costa choosing to enroll with CCHP over the other health plan choice in our county. CCHP researched patient choice and former PCP history to match new patients with PCPs in CCRMC, CPN and Kaiser networks.

Of our Medi-Cal members, 60% were previously seen at the Contra Costa Regional Medical Center and Health Centers. That number is now down to 53%, while 15% are seen by Kaiser Permanente and 32% are seen in our Community Provider Network. Preparations for SPDs enrollment began a year ago, and CCHP CEO Patricia Tanquary said “our success was only made possible by collaboration between CCHP, our Information Technology Unit, CCRMC/Health Centers, and particularly with Ambulatory Care Medical Director Chris Farnitano, MD. Overall, CCHP now covers more than 106,000 lives through all of its health care programs”.

Highlights in this Issue

- SPDs Are Here
- Pharmacy & Therapeutics Update, SPD Transition
- Breastfeeding Support, Fluoride Varnish
- Welcome New CPN Providers
- Bulletin Board
- CCHP Contact Phone Numbers
Pharmacy and Therapeutics Update

The Pharmacy and Therapeutics committee at CCHP reviewed the efficacy, safety, cost and/or utilization of the following therapeutic categories/medications at the meeting. The changes are expected to be effective the week of January 9th, 2012.

The committee approved addition of the following to the Preferred Drug List (formulary):
- Allegra OTC (fexofenadine) after failure of loratadine and cetirizine. OTCs are not covered for commercial members.
- Savella with step therapy
- Latuda 40mg and 80mg

The committee approved deletion of the following to the Preferred Drug List (formulary):
- Testred and Androxy tablets
- Ortho Tri Cyclen Lo tablets

The following were reviewed and prior authorization criteria approved or updated (remain non-formulary):
- Prior authorization has been removed on Testosterone Enanthate.

SPD Transition

- CCHP started accepting enrollment of Seniors and Persons with Disabilities (SPDs) June 1, 2011. Previously these patients were covered under Fee-For-Service Medi-Cal. CCHP has set up a special transition period to allow these SPDs to continue on any non-formulary medications and use of non-contracted pharmacies for up to 90 days (30 days with 2 refills) upon enrollment with CCHP.

CCHP will notify providers when their new SPD patient is on a CCHP non-formulary medication. Providers should promptly switch their patients over to a CCHP formulary agent or submit a prior authorization. Since CCHP will get new SPD enrollments at the beginning of each month until June 2012, some providers can expect to receive letters each month for their new SPD enrollees.

Patients will also receive letters from CCHP if they are using a non-contracted pharmacy. The letter will explain the need to use a contracted pharmacy and how to transfer their prescriptions to another pharmacy. If you have questions, please call the Pharmacy Unit at 1 (877) 800-7423 option 1.

Fluoride Varnish

Dental caries is the most common chronic condition in children, and can cause them a variety of serious difficulties including pain, poor nutrition, and diminished self esteem. The children at the greatest risk tend to be from low-income families. Studies show that caries rates drop by 50% over two years with one annual application of fluoride varnish to primary teeth, and by 75% with two annual applications. The varnish can be applied by a physician, nurse, or any trained personnel, and requires approximately 1 to 3 minutes to apply.

Fluoride varnish application is now a paid benefit for CCHP kids with Medi-Cal younger than age six. It can be applied up to three times a year, and is reimbursed at $18 per application, billing on a CMS 1500 form, using the code D1203. Varnish costs about $146 plus shipping for 200 doses—less than a dollar a dose. CCHP staff are available to train your staff and demonstrate application. We can also give you information on how to order. Please contact us at (925) 313-9500 to take advantage of this win/win situation.
Welcome New CPN Providers!

**Axis Community Health**, Jennifer Beeckman, NP, Sepideh Tafreshian, MD - PCP Family Medicine, Divya Raj, MD - PCP Pediatrics

**Bay Area Spine Institute**, Paul Nottingham, MD - Specialist - Orthopaedic Spine Surgery

Tidbits from Utilization Management...

What is Case Management?

According to The Case Management Society of America “Case Management is a means for achieving client wellness and autonomy through advocacy, communication, education, identification of service resources and service facilitation.” CCHP achieves this by facilitating personalized comprehensive high quality, well-coordinated care and service. CCHP Case Managers work one-on-one with clients to develop trust and rapport, leading to higher compliance and achievement of healthcare goals. To make a referral to the Case Management Program, simply fill out the CM Referral form (found in your Provider Manual) and fax it to (925) 313-6462. If you would like an electronic version that can be emailed, please call (925) 957-7453. Referrals may be emailed to laurie.crider@hsd.cccounty.us.
