

Journey to Center On Me

*A virtual platform for Person
Centered Planning that puts
the person in control!*

Our Intentions

Born from the desire for ALL people to have their voices heard and the need to put control back into the hands of those we serve. Center On Me is a web-based platform that empowers people to create their own person centered plan!

Welcome to Center on Me

Center on Me is a web-based tool created to assist you in planning your ideal life. This tool allows you to take a person centered approach to identify your goals, the steps needed to achieve them, and the supports you'll need along the way!

Contributors

Adding contributors to a person's plan gives those closest in their life a chance to comment and contribute to the plan they are creating! The plan owner has complete control over:

- Who is invited to be a part of the plan
- What people see and/or comment on
- The Plan Owner reviews all comments contributors make and decides whether or not to include the contribution to their plan
- Plan owners can create their own training video that contributors are required to watch before accessing their plan

Welcome, Amnesty

We see that you are joining as a contributor, which means someone thinks you're pretty important! You play an essential role while contributing to this plan, we ask that you uphold the purpose of this site and keep the plan owner at the center of their plan while utilizing your time to add rich and meaningful information. When contributing to a plan, we also ask that you take the time to reflect and capture specific information on who the person is, what is important to them, and how you can help them reach their hopes and dreams!

"Every single person has capacities, abilities, and gifts. Living a good life depends on whether those capacities can be used, abilities expressed and gifts given. If they are, the person will be valued, feel powerful and well connected to the people around them, and the community around the person will feel more powerful because of the contributions the person is making."

John McKnight

Through Discovery. . .

Plan owners, with contributions from their circle of support create a person centered plan that identifies what;

- Is Important To the person
- Is Important For the person
- Their Hopes and Dreams
- Supports they want and need to achieve their goals
