Definitions

“Tobacco product” means any of the following:

- any product containing, made from, derived from tobacco or nicotine that is intended for human consumption, whether smoked, heated, chewed, absorbed, dissolved, inhaled, snorted, sniffed, or ingested by any other means, including but not limited to cigarettes, cigars, little cigars, chewing tobacco, pipe tobacco, and snuff;
- any electronic smoke device;
- and any component, part or accessory of a tobacco product, whether or not it is sold separately, including e-liquids.
- “Tobacco product” does not include any product that has been approved by the United States Food and Drug Administration for sale as a tobacco cessation product or for further therapeutic purposes where the product is marketed and sold solely for that approved purpose.

Flavored tobacco product includes:

- A tobacco product with any distinguishable taste or aroma other than tobacco;
- a tobacco product whose labeling or packaging has text or an image indicating that the product is flavored is presumed to be a flavored tobacco product;
- a tobacco product with a taste or aroma relating to a fruit, chocolate, vanilla, honey, candy, cocoa, dessert, alcoholic beverage, menthol, mint, wintergreen, herb, or spice.
