

## AIDS - Diagnosed Cases, 2000-2002

| Group              | Diagnosed cases<br>(2000-2002) | Population total<br>(2000-2002) | Rate per<br>100,000 | 95% confidence<br>interval for rate |
|--------------------|--------------------------------|---------------------------------|---------------------|-------------------------------------|
| Contra Costa (CC)* | 250                            | 2,921,403                       | 8.56                | ( 7.50 to 9.62 )                    |
| California         | 12,906                         | 104,111,745                     | 12.40               | ( 12.18 to 12.61 )                  |

[ \* ] Indicates that the rate of AIDS cases diagnosed between 2000-2002 is significantly lower in Contra Costa than in California.
