Hospitalization data from the California Office of Statewide Health Planning and Development Healthcare Quality and Analysis Division, Healthcare Information Resource Center.

Population data from the California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, and E-4 Population Estimates for Cities, Counties, and the State, 2001-2004, with DRU Benchmark, available online at: <http://www.dof.ca.gov/HTML/DEMOGRAP/Druhpar.htm>. Sacramento, California, May 2004.

- * Race/ethnic population estimates were reallocated to account for the fact that the hospitalization dataset does not include the race/ethnic category of two or more race groups.
- * City-level denominators were extrapolated from the E-4 file to approximate the mid-year city-level population estimates that are needed to calculate city-level rates.
