

**Laboratories Accredited to Test Environmental Samples for Lead
Bay Area / Northern California
(Updated 03-01-2020)**

These Northern California laboratories are among those recognized by the Environmental Protection Agency as meeting the requirements of the National Lead Laboratory Accreditation Program (NLLAP).

*A complete list of accredited laboratories for all states can be viewed at:
www2.epa.gov/lead/national-lead-laboratory-accreditation-program-list
For best results, hire a State-certified lead inspector/risk assessor to collect samples.*

Company Name	Phone / Website	Proficient to Test *	Cost per Sample / Turnaround Time
