8:30 a.m.—5 p.m.
After hours by appointment only

Re-entry Health Conductors Program
Re-entry Health Conductors Program Mission

The Re-entry Health Conductors Program is a “Call to Action” to all county health care systems and social services to address the glaring health disparities and social inequities facing the returning citizen (formerly incarcerated).

What are Health Disparities?
Differences in health status among distinct populations, including differences that occur by gender, race or ethnicity, education or income, or living in various geographic locations.

What are Health Inequities?
Disparities in health are a result of avoidable and unjust social and economic policies and practices that create barriers to opportunity.

Why should I work with a Re-entry Health Conductor and the Pittsburg Transitions Clinic Network?

Re-entry Health Conductors

Understand difficulties navigating the healthcare system

Tailored Care

For newly released citizens with chronic medical conditions

Medical Doctors with Training

Experience caring for patients with a history of incarceration

Partners with Community Organizations

To serve formerly incarcerated individuals
